

ABILASH JAYAKUMAR

Professional Summary

Detail-oriented and analytical Data Analyst with hands-on experience in SQL, Power BI, Excel, and Python for data cleaning, transformation, and visualization. Proven ability to extract actionable insights from complex datasets and support data-driven business decisions. Adept at building dashboards, performing exploratory data analysis, and automating reporting processes. Passionate about business intelligence, machine learning, and creating scalable data solutions to solve real-world problems and currently pursuing a graduate certificate in Business Insights and Analytics at Humber College, with a strong foundation in research and technical writing.

Skills

- MySQL
- Microsoft Power BI
- Python (NumPy, Pandas)
- Excel (VLookup, Conditional Formatting, Pivot Tables)

Projects

EXPLORATORY DATA ANALYSIS – NORDSTROM – Personal Project

March 2025

- Analyzed **288K+ product records** using SQL to uncover pricing, sales, and review trends.
- Segmented data by **brand, department, and gender** to identify high-performing categories.
- Built CTE- and JOIN-based queries to support business insights and targeted marketing.

DATA CLEANING & TRANSFORMATION – LAYOFF DATASET– Personal Project

March 2025

- Cleaned and structured **2,300+ layoff records** using advanced SQL (CASE, nested subqueries) and Excel.
- Resolved **700+ missing values**, removed duplicates, and standardized date formats.
- Prepared data for executive reporting, enabling industry-wise layoff trend analysis by stage and region.

WEB SCRAPING USING PYTHON – TABLE EXTRACTION – Personal Project

February 2025

- Engineered a Python-based solution to automate data extraction from structured HTML tables using **requests** and **BeautifulSoup**
- Transformed scraped content into a structured **Pandas** DataFrame, enabling seamless downstream analysis

Work Experience

RESEARCH ASSISTANT – National Aerospace University.

Dec 2017 - October 2021

- Conducted biomechanical research focused on implant and bone structure modeling.
- Simulated 3D implant models using SolidWorks and exported analytical data.
- Cleaned and transformed datasets in **Excel**; developed visual charts for results presentation.
- Contributed to **7 international research publications** in the fields of biomechanics and implant design.

Education

GRADUATE CERTIFICATE IN BUSINESS INSIGHTS AND ANALYTICS – Humber College – Toronto, ON.

July 2026

Electives: Fundamentals of Marketing, Integrated Marketing Communications.

BACHELOR OF SCIENCE IN AEROSPACE ENGINEERING – National Aerospace University – Kharkov, Ukraine.

June 2021

Majors: Aircraft Production Technologies, Mechanical Engineering.
